Coir & Coir Pith Cake :

Coir Pith, a residue from coconut husks, is a natural soil conditioner. As a by-product of coconut coir processing, it enhances soil structure and moisture retention, making it an ideal choice for sustainable farming.

Benefits :

- Boosts soil aeration and drainage.
- Promotes healthier root development.
- Eco-friendly alternative for soil enrichment.

Coconut Oil :

Coconut Oil, extracted from mature coconuts, is a versatile and nourishing oil with a myriad of benefits. Beyond its culinary uses, it's a staple in skincare and wellness, offering a range of natural solutions.

Benefits :

- Rich in antioxidants for skin and hair care.
- Supports heart health with its unique fatty acids.
- Adds a delightful flavor to culinary creations.

Coconut Flour/Powder :

Coconut Flour, derived from dried coconut meat, is a gluten-free alternative packed with nutrients. Ideal for baking and cooking, it adds a subtle coconut flavor to your favorite recipes.

Benefits :

- High in fiber and protein for a nutritious boost.
- Gluten-free and suitable for various dietary preferences.
- Enhances the texture and taste of baked goods.

Coconut Cream :

Coconut Cream, extracted from fresh coconut meat, is a luscious addition to both sweet and savory dishes. It elevates the flavor profile of your culinary creations.

Benefits :

- Adds a velvety texture to curries, desserts, and beverages.
- A dairy-free alternative for those with lactose sensitivities.
- Packed with healthy fats for a satisfying and indulgent experience.
